Who We Are

Asiatic Energy, we are more than just a company we are a trusted partner dedicated to empowering the oil and gas industry. We have established ourselves as a prominent force committed to enhancing safety, expertise, and professionalism in well control and beyond.

Our comprehensive range of services — including well control training, recruitment solutions, Equipment Supply & Rig Inspection — is designed to meet the dynamic needs of the industry. By fostering skill development and promoting best practices, Asiatic Energy continues to play a pivotal role in driving innovation, efficiency, and growth within the sector.

With a steadfast focus on innovation and excellence, Asiatic Energy continues to shape the future of the oil and gas sector, ensuring safer, smarter, and more efficient operations worldwide.

Our Vision

Our vision is to revolutionize the well control training and recruitment landscape by driving innovation, enhancing skills, and elevating safety standards in the oil and gas industry. We are committed to creating a global impact by

- **Pioneering Innovative Solutions** that redefine well control practices.
- **Empowering Professionals** with cutting-edge knowledge and expertise.
- **Fostering Collaboration** to build stronger industry partnerships.
- **Delivering Exceptional Value** to our clients through tailored solutions.
- **Inspiring Trust** by upholding integrity, reliability, and excellence

Through these efforts, we aim to leave a lasting legacy — transforming the way well control is approached and practiced, ensuring a safer, more skilled, and forward-thinking industry for generations to come.

Training Services

At Asiatic Energy, we offer a comprehensive range of industry-recognized training programs designed to equip professionals with the knowledge and skills essential for safe and effective well control operations. Our training services are structured to cater to various expertise levels, ensuring tailored learning experiences for every role in the industry.

IWCF (International Well Control Forum) Certification

International
Well Control
Forum

We provide IWCF-certified training across multiple levels with specialized focus areas

- **Level 2 – Basic Well Control Awareness** (Ideal for support staff and newcomers)
- **Level 3 – Driller Level** (Designed for personnel directly involved in well control operations)
- **Level 4 – Supervisor Level** (Targeted at supervisors and those responsible for critical decision-making)

Available for both **Surface Stack** and **Subsea Stack** configurations

IADC (International Association of Drilling Contractors) Certification

Our IADC-certified courses ensure personnel are equipped with essential well control skills at all levels

- **Introductory Level** - Fundamental training for entry-level personnel.
- **Driller Level** - Focused on individuals managing well control equipment and procedures.
- **Supervisory Level** - Designed for senior personnel responsible for operational leadership and critical decision-making.

IADC
WELLSHARP

RIG PASS Certification

Our RIG PASS program provides essential safety orientation for personnel new to the oil and gas industry. This course ensures participants understand industry safety standards, hazard awareness, and proper conduct in operational environments.

Recruitment Services

As a leading service provider in the oil and gas industry, Asiatic Energy stands out for its comprehensive offerings in recruitment and training. With a rich five-year history in the dynamic realm of oil and gas training and recruitment, our primary focus revolves around catering to the needs of experienced oil field drilling and workover crew/executives at all levels.

»» Expertise in Oil & Gas Verticals

At Asiatic Energy, we excel in the recruitment of senior-level professionals within the intricate landscape of the oil and gas sector. Our approach is nuanced and specialized, ensuring a tailored strategy to address the distinctive staffing requirements of this highly specialized industry

»» Workforce Acquisition

By harnessing our in-depth domain expertise, Asiatic Energy plays a pivotal role in helping organizations acquire the optimal workforce. We go beyond conventional recruitment practices, identifying and recruiting highly skilled professionals specifically tailored to the unique demands of the oil and gas field.

»» Enhancing Productivity and Quality

Our commitment to enhancing organizational productivity and elevating quality standards is unwavering. Asiatic Energy strategically places experienced and qualified personnel in key positions, fostering a work environment conducive to peak performance and unparalleled quality output.

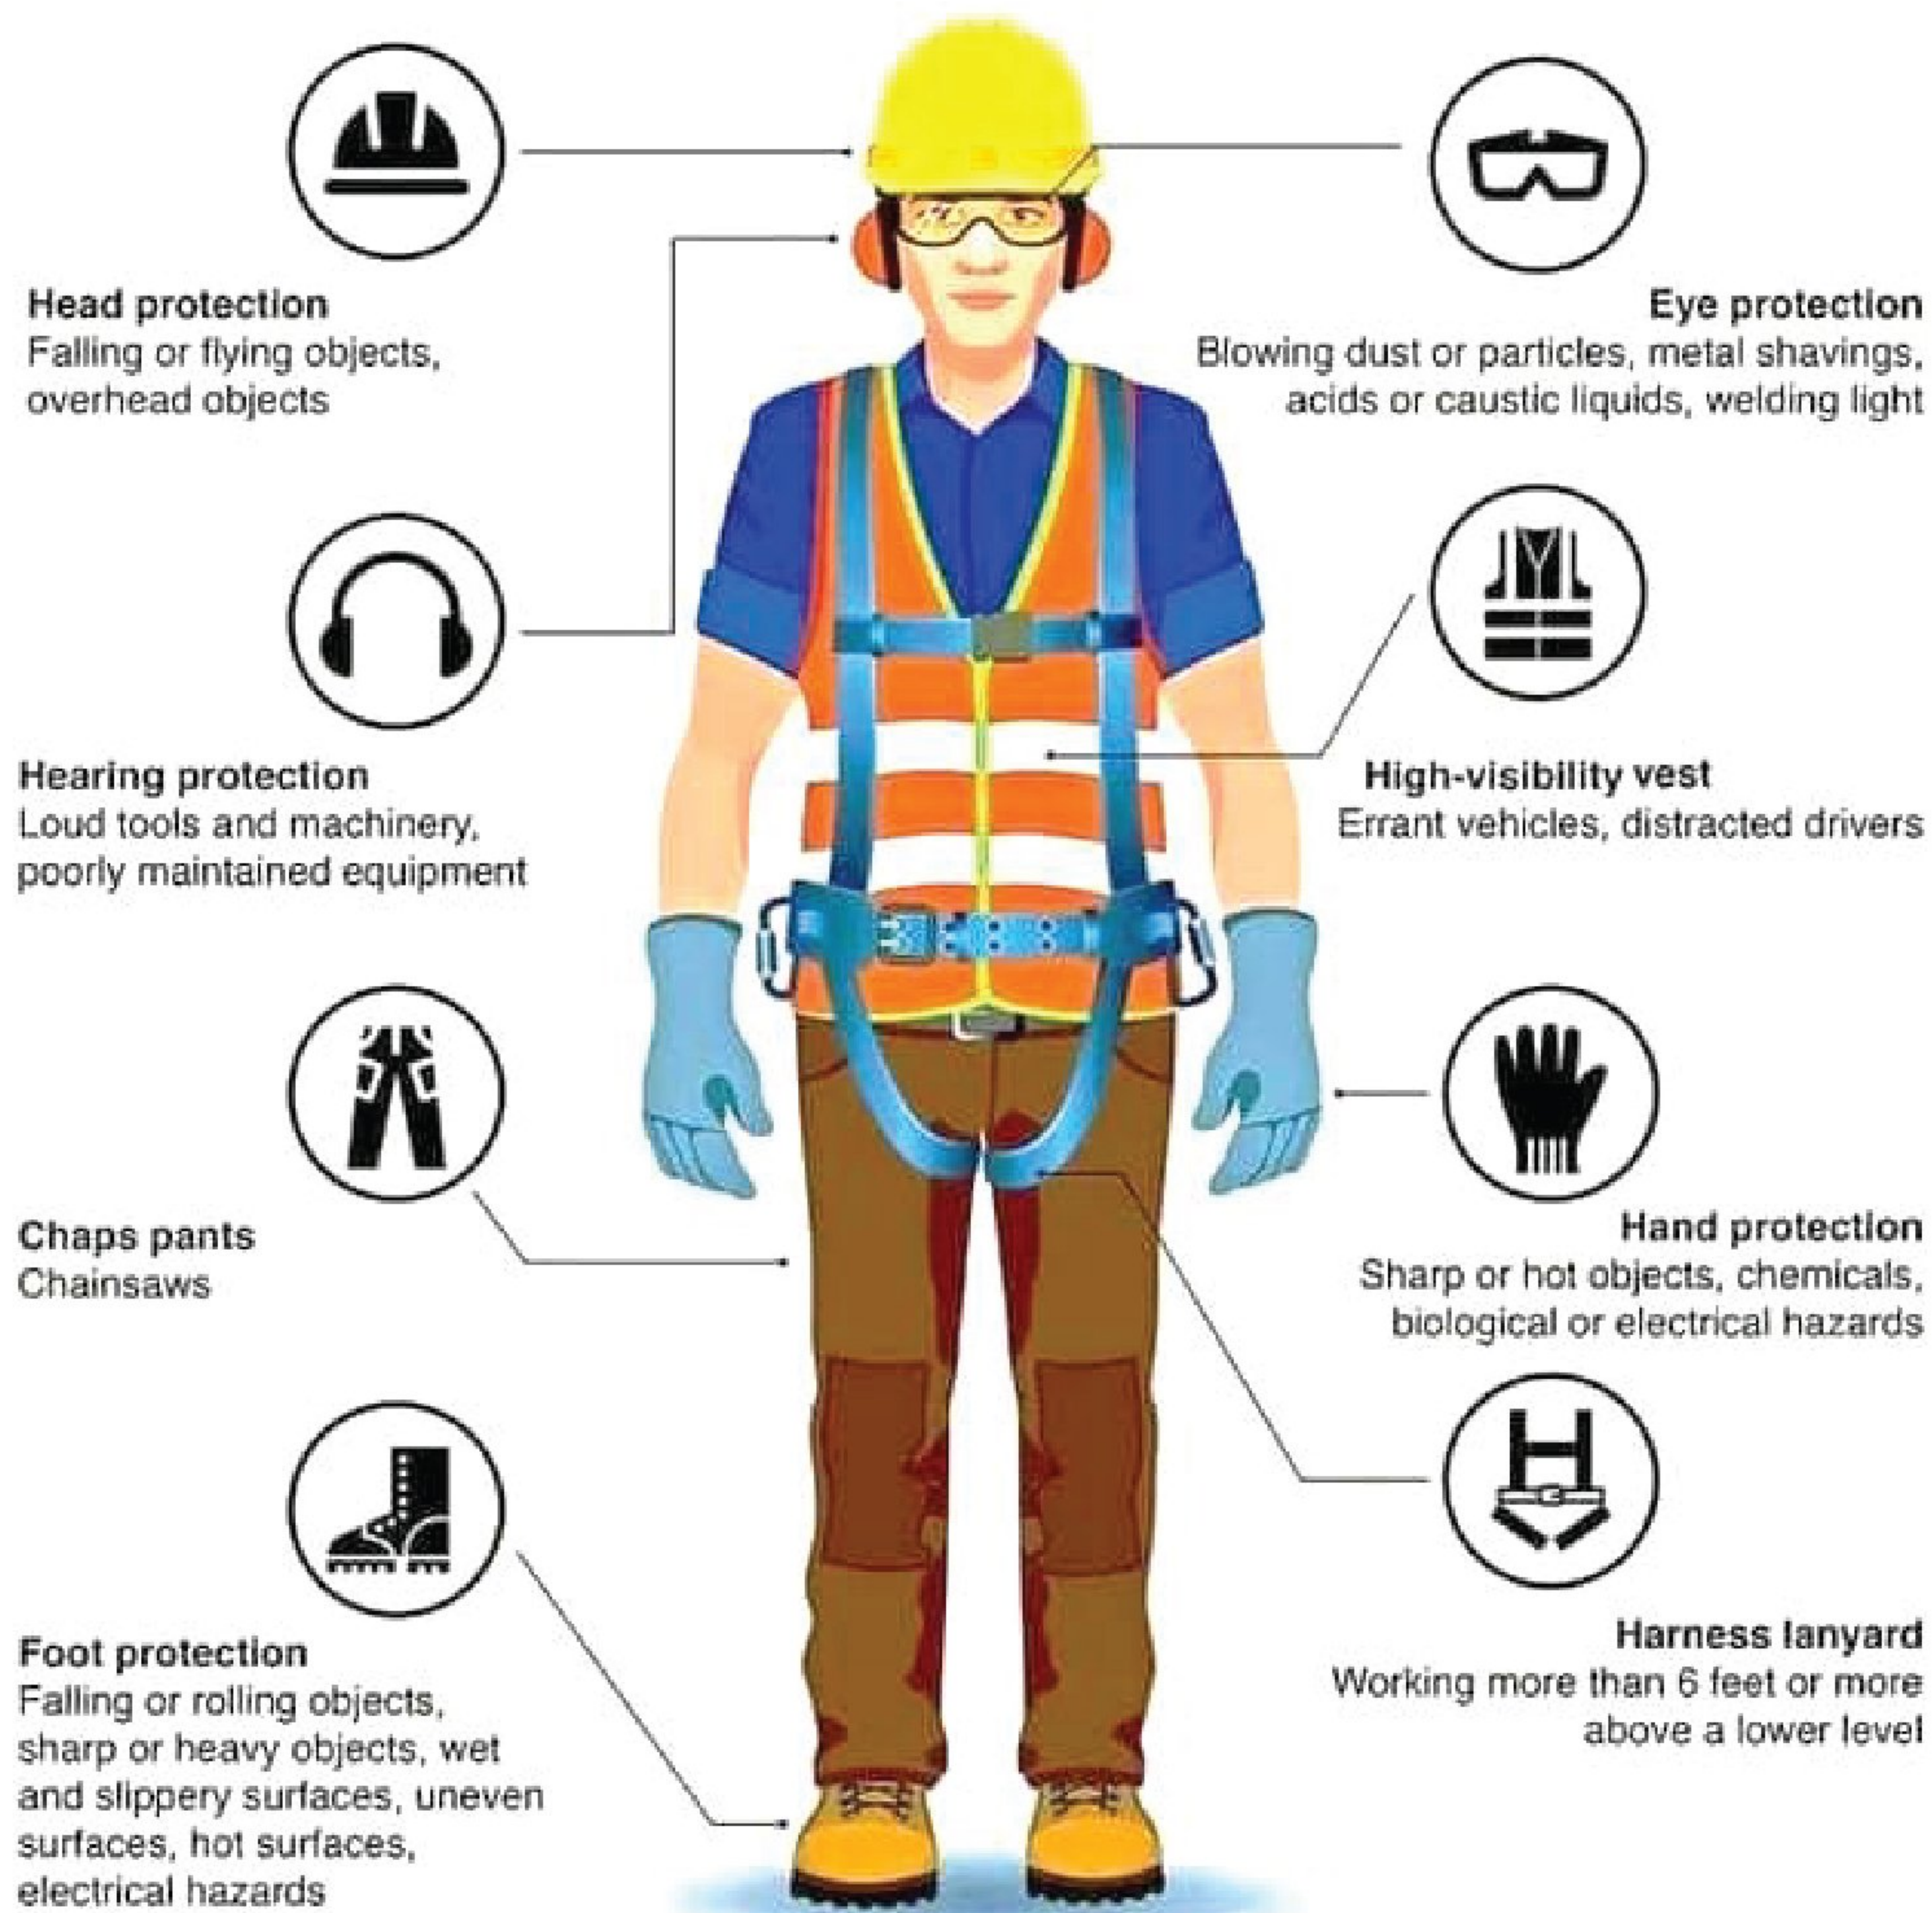

Equipment Supply

Asiatic Energy Rig Equipment Supply is a trusted provider of high-quality equipment and materials for drilling rigs across various industries. We go beyond just supplying products -our focus is on delivering carefully selected, advanced tools, machinery, and premium materials to meet industry demands.

We proudly serve sectors such as **Oil & Gas, Construction, Manufacturing, Electrical, Mining,** and Shipping. Our extensive range includes essential equipment, spare parts, and consumables designed to support smooth and efficient offshore operations.

With a strong focus on **innovation, reliability,** and **efficiency,** Asiatic Energy ensures your equipment needs are met with the highest standards of quality and performance.

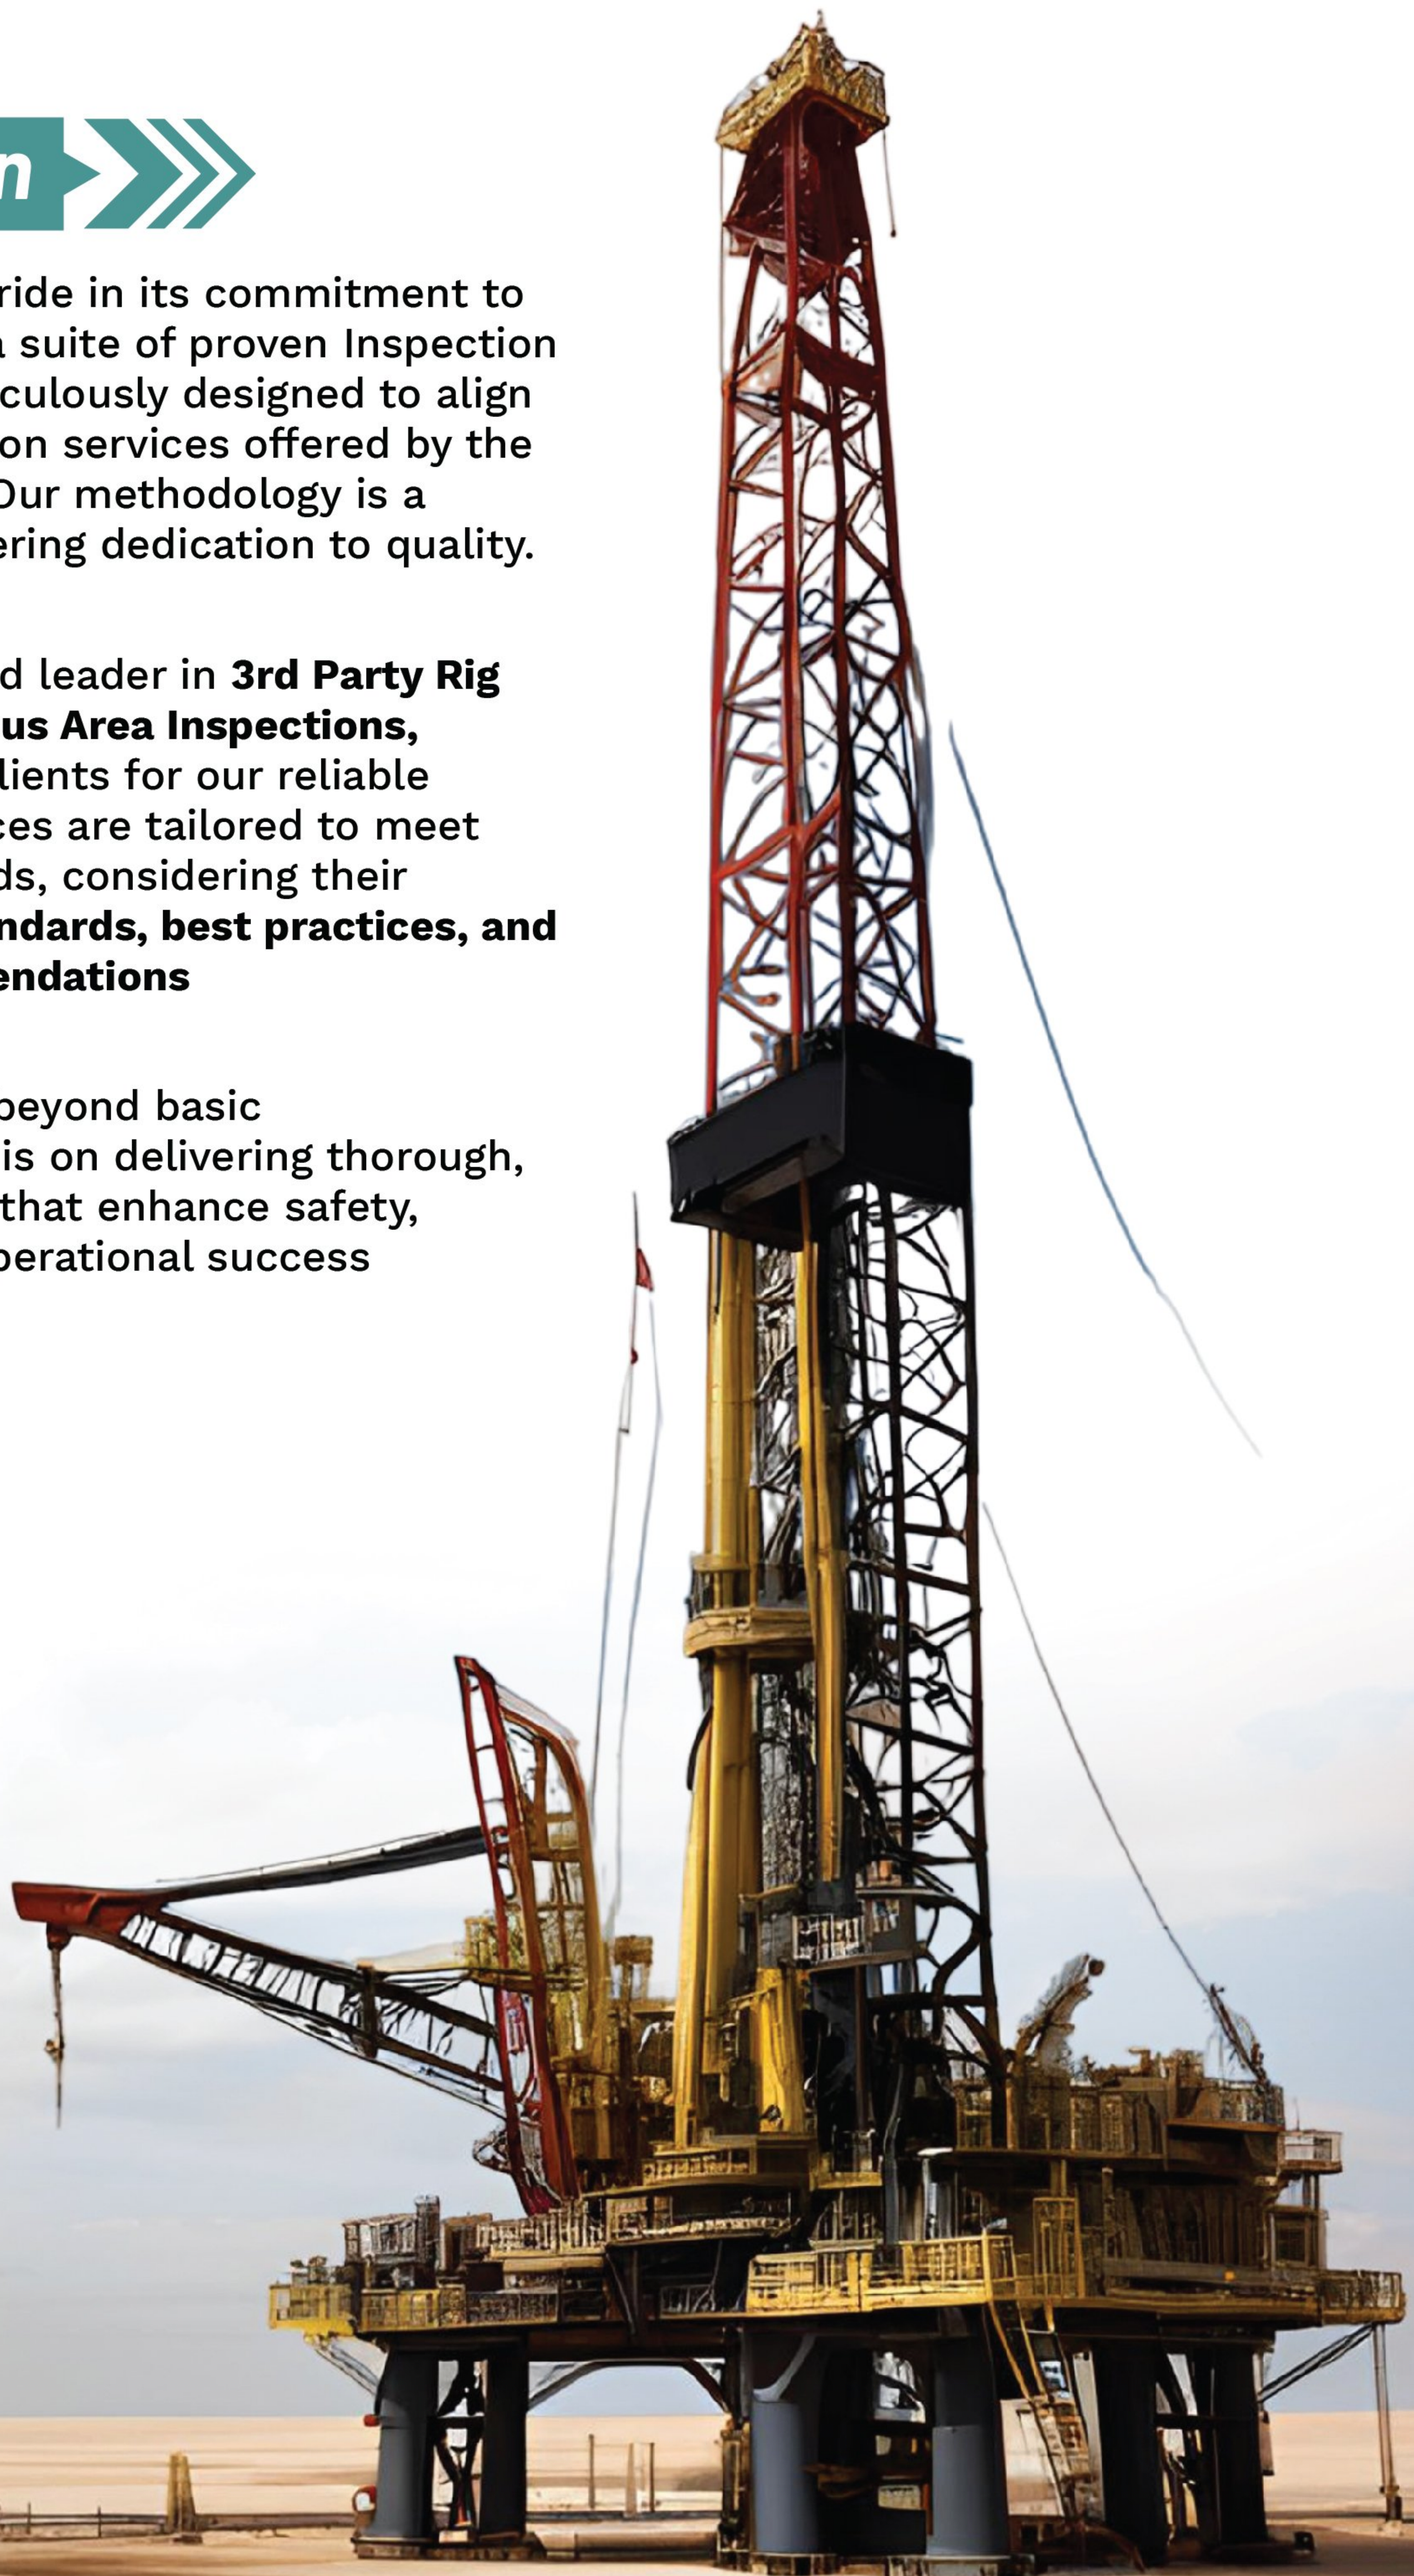

Rig Inspection

ASIATIC ENERGY takes pride in its commitment to excellence, showcasing a suite of proven Inspection and Audit programs meticulously designed to align with the diverse inspection services offered by the ASIATIC ENERGY Group. Our methodology is a testament to our unwavering dedication to quality.

Asiatic Energy is a trusted leader in **3rd Party Rig Inspections** and **Hazardous Area Inspections**, consistently chosen by clients for our reliable services. Our audit services are tailored to meet each client's unique needs, considering their **policies, regulations, standards, best practices, and manufacturers' recommendations**

At Asiatic Energy, we go beyond basic compliance — our focus is on delivering thorough, high-quality inspections that enhance safety, efficiency, and overall operational success
